

TMC - Tyre Mounting Console

The machine that easily handles all rim/tyre combinations

The invention of the wheel has just begun.

Benefits:

High output
Easy to operate, ideal for job rotation
No rim / tyre damage
Ergonomic working position
Tyre mounter can supervise trueing process
No trueing after tyre fitting necessary

Features:

Can handle all rim/tyre combinations from 16" to 28"
Ergonomic design
Minimal change-over time
Floating hub thanks to four-point rim clamping
Automatic tyre centring
Automatic inflation
Working station: fitting of tyre / cassette hub / reflector / roller brake
Communication with FloorView®

Options:

Wheelchair wheels kit
Different voltages

Specifications:

Air pressure:	min. 5 bar
Air consumption:	100 l/min.
Electrical connection:	230 V
Power consumption:	0.3 kW
Sound level:	< 70 dB
Communication:	RS-232 / FloorView®
Wheel dimensions:	16" - 28"
Max hub width:	220 mm
Capacity: :	Up to 90 wheels/hour, depending on components
Safety mark:	CE
Dimensions:	(l × w × h): 950 × 950 × 1700 mm
Weight:	240 kg
