

Product Information

QTape Rimtape

QTape supplies a complete range of rim tape for applications within the bicycle industry. Our products are developed to deliver reliable performance and consistent quality.

All QTape products are tested on our own machines. This enables us to guarantee stable processing, precise positioning, and consistent performance in use.

Models

Standard

Reliable standard version for regular applications.

Premium

Increased strength and enhanced adhesion for heavier loads.

Heavy Duty

Extra-strong version for intensive use and heavier bicycles.

Tubeless

Designed for applications requiring a reliable airtight seal.

Product Benefits

- ✓ Consistent quality per batch
- ✓ Tested on our own machines
- ✓ Developed for our applications
- ✓ Reliable adhesion and positioning
- ✓ All widths available on request
- ✓ Available in large rolls from 66 to 3,000 meters

The large roll lengths are particularly suitable for high production volumes and help reduce interruptions during processing.

For advice on the appropriate variant or a tailored quotation, we would be pleased to receive your inquiry.
